FAQ

This article explains what a product key is, how to get it and how to use it. What is the product key of Revit 2017? Revit 2017 is a product of Autodesk. It is used to design 3D models and drawings and is distributed as an installer and as a free/demo version. The full version of Revit 2017 is distributed in three versions (Professional, Premium and Ultimate), where the product key is distributed in a different way for each one. It is very important that you get a product key in order to use Revit and create drawings, as if the product key has expired, Revit will not allow you to create a new project and you will be unable to use the software. How to get the product key of Revit 2017 When you have a product key, you can use it to access Revit on a personal computer and create or open a new project. If you do not have the product key, you must be able to install the product on a PC and get a product key. If you have not installed Revit 2017 yet, you can download it and install it. When you open the installer, you will be able to find the product key on the first screen. If the product key has not yet been registered in your Autodesk account, it will ask you to register it and it will request that you enter your email address and the password you use to access Autodesk. If you do not have Autodesk, you can download and install it and then register it. To access Revit after you have installed it, click on the Revit icon on the desktop and choose Start Revit. When you open Revit, you can find the product key in the Revit version (2017) section of the property sheet of your project. If you do not have a product key or you cannot find it, or you want to obtain the product key of the latest Revit version, you can purchase the license online. How to use the product key of Revit 2017 In order to use the product key of Revit, you must register the key in the Autodesk account you use to create projects. If you do not have an Autodesk account, you can create it. If you are installing Revit for the first time and do not have an Autodesk account, you can register it online, and then 82157476af
